I BELIEVE

Design Manifesto

- 1. I believe in empathy, empathy makes a designer in and of the world.
- 2. I believe in collaboration, even if it is troublesome, even if it creates friction.
- 3. I believe in failure, failing fast is the best way to learn and relearn.
- 4. I believe in being honest, not everything that can be (re)designed should be (re)designed.
- 5. I believe in storytelling, that great design tells a story.
