## EXPERIENCE

### Product Designer
Meta
Aug 2022 – Present · New York · Remote

Leads end-to-end design for AI-powered advertising on Core Ads Growth. Partners with engineering, data science, and PM to define product vision for 11M+ advertisers.

- Designed a unified preference-based interface consolidating two competing AI systems (recommender vs. classifier), shipping to QE Apr 2026
- Architected AI-driven product set intelligence enabling automated catalog expansion for 11M+ advertisers
- Drove +1.5% incremental revenue ($50M annualized) via redesigned omni-channel ad creation flows, validated through multivariate testing

### Principal Product Designer
The Washington Post
Jun 2020 – Aug 2022 · New York · Remote

Led design strategy for subscription growth, partnering with editorial, product, and engineering to drive measurable conversion gains.

- Drove +15.53% conversion ($13M annualized) by redesigning paywall and onboarding via iterative A/B testing
- Shipped 1-click subscription that lifted conversion +16%, reducing friction from 5 steps to 1

### Senior Product Designer
Tripadvisor
Oct 2019 – May 2020 · New York

Owned end-to-end UX for Tripadvisor Flights — search, booking, and post-purchase across web and mobile.

- Increased meta revenue +6.53% ($320K annualized) by redesigning fare comparison and ranking UX
- Lifted search engagement +14.5% ($80K annualized) via streamlined filter system

### UX Design Lead
United Nations Development Programme
Aug 2016 – Oct 2019 · New York

Established the product design practice for UNDP's digital fundraising platform serving 170+ countries.

- Drove +$24M in B2B donations via enterprise donor portal with streamlined pledge workflows
- Grew B2C donations +$4.3M by redesigning giving experience with localized payment flows
